DON'T MISS OUT!

CELEBRATING 30 YEARS

of Advanced Pediatric Dermatology Education

30 YEARS | PEDIATRIC DERMATOLOGY
EDUCATION

The Masters of Pediatric Dermatology has reached its 30th year and expanded in 2021 to a two day symposium with the purpose to promote and advance pediatric dermatology. Our program includes live didactic sessions, case-based discussions and the opportunity to network with both our attendees and national thought leaders in this space.

Led by Dr Lawrence Schachner, who founded the program 30 years ago, MOPD is proud to host some of the best faculty in atopic dermatitis, alopecia areata, molluscum, skin of color, acne and a myriad of other topics that dermatologists, pediatric dermatologists and now are fastest growing demographics- pediatricians, see in their daily practice.

There has been a growing need for education in this space, so much so, that we continue to expand our educational offerings. Ranging from standalone programs at the American Academy of Pediatrics and the Florida Chapter of AAP to virtual webinars for targeted therapies, and Q and A sessions for extra guidance- we are on an exciting trajectory.

Finally, in 2021, with our inaugural virtual program we had over 1100 dermatologists, pediatric dermatologists and pediatricians attend and over 35+ industry, media and association partners. Although it was unlike any other MOPD in the past years, it was our largest and most successful to date because of partners like you. We look forward to seeing you in 2022 and are excited to be live back at our home, the Loews Miami Beach. See you then!
