
Masters of Pediatric Dermatology 2023

February 9-10, 2023

Miami Beach, FL

Activity Overview

Target Audience

The Masters of Pediatric Dermatology symposium is designed to meet the needs of pediatric dermatologists, pediatricians, family practitioners, dermatologists, physician assistants, nurses/nurse practitioners and residents in these programs.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Summarize new and emerging treatment options for hyperhidrosis in pediatric patients.
 - Review expert guidelines, including evidence to support new and emerging agents, for treatment of acne in children
 - Interpret the clinical safety and efficacy of emerging agents for treatment of alopecia areata in children.
 - Apply evidence-based strategies for optimal diagnosis and treatment of AD in pediatric patients
 - Summarize the safety and efficacy data for new and emerging AD therapies
 - Discuss strategies for optimal treatment of infantile hemangioma, including current and emerging therapies
 - Examine recent updates to psoriasis treatment guidelines, including recently approved and emerging therapies for pediatric patients
 - Apply expert recommendations for treatment of vitiligo in order to achieve optimal patient outcomes
-

Criteria for Success

Statements of credit will be awarded based on the participant's attendance and submission of the activity evaluation form. A statement of credit will be available upon completion of an online evaluation/claimed credit form at www.southbeachsymposium.org. You must participate in the entire activity to receive credit. If you have questions about this CE activity, please contact AKH Inc. at tbrignoni@akhcme.com.
